

ExCEL Board Report

December 2019

Submitted by Casey Miller

The tricks have all been treated and the thanks have all been given, now ExCEL prepares for the culmination of the holiday season. The temperatures have been dropping and the daylight is getting harder and harder to come by but ExCEL is showing no signs of slowing down.

Student news- With 60 wolves in the pack this month there were a few that stood out more than the rest. In the high school, Annawan took home the prize for leader of the pack with JT C. The middle school saw a Kewanee student, Cody H., take home the honor this month. And Kewanee also won in the elementary school with Aria J. being deemed the Leader of the pack for the floor.

Staff news- Our staff Pack Leader is Drew Hoffman. Mr. Hoffman will be retiring at the end of this semester and he is receiving this honor for his helpful demeanor, easy going attitude, positive energy, mentorship and experience that he brought to the wolf pack for the past 5 years.

Building news- You can always tell that Christmas is coming when you walk the halls of ExCEL. The ceilings are decorated, the festive door contest is in full swing and Christmas spirit is already overflowing. We are excited to end the semester on a high note and to come back in January, recharged and ready to roll into the new year.
