

Board Report October 2020 Submitted by Casey Miller

As the pandemic continues to burn and the leaves start to turn, ExCEL is still going strong and helping our students learn. The crazy start to the year has calmed down and we have settled into a nice routine in these hallowed halls.

Student news- The pack stands firm at 48 members total. Of our 48 pack members, 18 students are currently utilizing our remote option for their education. The student body used September to elect a new student council for ExCEL. Our president, Katyana C. is from Kewanee, as is our Vice President, Ryan S. Our other cabinet members are Cody H. of Kewanee and Conner G. from Galva.

We also had students who went above and beyond in the month of September and were elected our "Leaders of the Pack". In the elementary school, Jonathan S. from Neponset won the title. Anastasia H. from Stark County was the leader of the middle school. Taking the crown in the high school was Ryan S. of Kewanee.

Staff news- Ms. Molly Carlton was elected as the "Leader of the Staff" for her outstanding work in the month of September. She has taken over our Facebook page and done a fantastic job of keeping the community informed of all the great things our teachers do here at ExCEL. She also organizes our monthly staff newsletter as well as weekly Friday activities for the entire student body.

Building news- Mr. Kegebein has done a fantastic job of keeping our building sterile during this pandemic. He can frequently be spotted going room to room to spray, sterilize and wipe clean all surfaces that our students and staff use throughout the day to ensure their health and wellbeing.
