

ExCEL

Board Report November 2023 Submitted by Steve Wheelock

Our enrollment coming into November stands at 56 students. While our elementary numbers are still high, we are actively looking for ways to transition students back to their home districts.

ExCEL has had a few points of pride this past month. J. Ashley of Geneseo has completed our program and transitioned back to Geneseo. We also have 2 different middle school students, one from Geneseo and one from Cambridge, that we are preparing to return to their home districts as we speak.

ExCEL's "Leader of the Pack" for her outstanding work in the month of October is our 4th-5th grade Teacher Ms. Anderson. For our elementary floor, Joey A. from Geneseo, on the Middle School floor, Ben P. from Kewanee, and Aidyn G. of Geneseo for our high school were our student "Leaders of the Pack."
