

## Board Report Feb 2022 Submitted by Casey Miller

Winter has arrived and with it has come the cold and the snow. While the temperature outside might be dropping, things are just heating up in the warm halls of ExCEL.

Student news- The wolfpack has lost a few members over the last month with our numbers slipping slightly to 43 at this moment. The even distribution of last semester has passed, and nearly half of our students are in our middle school.

We had a couple outstanding members during the month of January, and they have been named our February Leaders of the pack. In the middle school, C. Goston of Kewanee has been given the distinction of "Leader of the Pack." In the high school, N. Vancil of Kewanee gets the nod as the "Leader of the Pack".

Staff news- ExCEL has also elected a "Leader of the Staff" for their outstanding work through the month of January. Mr. Roome from our high school floor was given the honor this month. Mr. Roome is the high school science teacher, but he is always looking for ways to help around the building and coming up with ideas to improve our program.

Building News- Our high school S.T.E.P. program will be taking our students on a field trip to Rock Island to get an opportunity to tour the union facilities used to train plumbers and pipefitters as well as heat and frost insulators. That field trip will take place on February 9<sup>th</sup>.
