

ExCEL

Board Report

August 2026

Submitted by Steve Wheelock

The floors are shined, the walls are spot painted, holes are patched, and new murals are added. The building is ready for students. The student information packets are in the mail, and we are prepping for the first ExCEL back-to-school night on Friday, August 7th.

We plan to start the school year with 40 new or returning wolves in the pack. Still looking for a few new paraprofessionals, but other than that, the staffing looks pretty good. Everyone is excited for the coming year.
