

ExCEL

Board Report August 2022 Submitted by Casey Miller

Summer is nearly done and ExCEL is ready to get this school year off with a bang. The summer crew has worked hard all summer to make sure the building is in the best possible shape for our staff and students alike to walk in and be happy to be back.

Student news- We come into this year with 45 wolves on our roster, but that number changes daily with the move ins that always start to roll in this time of year.

Staff news- Most staff have already come in throughout the summer to get started on lesson plans and get their rooms decorated. We will be welcoming some new staff this year. With one new teacher and five new paraprofessionals, there should be some fresh and welcomed ideas to improve the program.

Building News- The building is all waxed and washed and ready for the year. With no big projects this summer we were able to hit all the nooks and crannies and get this old building shining from top to bottom.
