

ExCEL Board Report

February 2019

Submitted by Casey Miller

Following the fantastic January that began the year, February has gotten off to a snowy start. With the multitude of snow and weather days we have had so far in 2019, ExCEL is still rolling right along.

Student news- There are currently 58 wolves in the ExCEL pack at this point. New students continue to roll in as the calendar turns from January to February. Even though January was short, we still had some outstanding performances from our students. Geneseo, Wethersfield and Kewanee all had a student of the month for their hard work in January.

Staff news- Our staff member of the month is Ms. Taylor Wilson. She is the para in the newly established elementary room and has been rolling with the punches so far this year and doing a fantastic job.

Building news- IAR, SAT, and PSAT testing are right around the corner and ExCEL is getting ready for the test days ahead.
