

Board Report June 2021 Submitted by Casey Miller

The book is closed on another year and now the summer work begins. With a solid end to the year the halls of ExCEL are now empty of students and teachers and the summer crew is getting ramped up to paint and polish the beautiful old building and get ready for August.

Student news- The year ended with 56 members of our pack. Quite a few new pack members arrived late or are scheduled to start with us in August. Between graduates and the students, we transitioned back to their home school we are projected to start with 54 students next year.

Staff news- The year ended with our staff excited to get back in August to get into our new course offerings. Next year our high school will be offering Spanish, Sociology, Computers, Human Anatomy, and Journalism for the first time in the history of ExCEL.

Building news- It is that time of year where the rooms are empty, and the walls are bare. A fresh coat of paint and some polish this summer will have this building looking like new come August.
